Adobe Sign text-tag test agreement

Test document for seas-partner-docs #22. It checks whether Adobe Acrobat Sign text tags, written in white 12 pt text in a Google Doc, become fields when the exported PDF is uploaded. Not a real agreement.

1. Parties

This test agreement is between **Example Partner, Inc.** (signer 1), **Jane Student** (signer 2), and **President and Fellows of Harvard College** (signer 3).

2. Terms

The parties agree that this document exists only to test field placement. Underlined, *italic*, and **bold** text appear here so the PDF looks like a real draft.
